SKILL LEVELS

All model rocket kits in this catalog require assembly unless otherwise indicated. Skill level numbers given in each kit description recommend the general skill and experience necessary for a rocketeer to successfully complete the kit. For further information refer to the chart below.

Skill Level No.	Description	To Be Built By
1	Very Simple	Beginning Rocketeer
2	Fairly Easy	Intermediate Rocketeer
3	Average	Craftsman Rocketeer
4	Challenging	Advanced Rocketeer
5	Extremely Challenging	Expert Rocketeer

Estes Industries encourages membership in the National Association of Rocketry for the active model rocketry enthusiast.

...the incredible space age hobby!

There is no thrill quite like launching a model rocket you have built, watching it streak skyward, reaching apogee, then gently returning to earth on its parachute. In a very real sense model rocketeers experience the same excitement felt by America's space scientists and astronauts as they push man's horizons relentlessly forward to the stars. The best way to get started in the exciting world of model rocketry is with an Estes Starter Kit (see pages 4 to 7). Each starter kit has everything you need to build and fly your first rocket.

As you increase your rocketry skills you can progress to new and exciting projects including multi-stage rockets, payload experiments, scale models, and even aerial photography. We know you will enjoy building and flying our rockets as much as we enjoy designing them, and invite you to join with more than 80,000 fellow rocketeers by becoming a member of the Estes Aerospace Club (see page 37) for maximum enjoyment of this exciting hobby. Good luck, and happy flying!

FLIGHT SEQUENCE & MODEL ROCKET PARTS

BASIC MODEL ROCKET COMPONENTS

Most model rocket kits are constructed of light-weight hobby materials such as balsa wood, paper tubing and plastic. Diagram shows basic components found in most model rocket kits.

Big Bertha

Cat. No. 1223

X-RAY

Cat. No. 1218

Sky Hook

Cat. No. 1208

CHOOSING YOUR NEXT ROCKET

Here are 3 excellent choices for your next rocket. All are quite different, yet each one is ideal for your second kit. As each is a Skill Level 1 model, all are recommended for the beginning rocketeer to further increase your experience and develop your model rocketry skills.

The Sky Hook is an excellent sport flier with colorful 12" parachute recovery. If you're interested in payload experiments the X-Ray is a great high-performance payload with large see-through cargo section. For a really "Big" rocket that's easy-to-build with slow, realistic lift-off, the Big Bertha is for you!

Engine's ejection charge is activated and deploys parachute.

Model coasts upward to peak altitude during time delay.

Model begins to drift safely back to earth.

Powered Flight

Rocket is launched electrically from launch pad.

Gentle touch down . . . ready to blast-off again.

All prices in this catalog are subject to change without notice.

This year our Nation celebrates 200 years of growth and freedom. Within a decade and a half of its founding, Estes Industries will also reach a landmark of its own. Sometime early this summer an American rocketeer will enjoy the 100,000,000th launching of an Estes model rocket. We are very proud to be a part of the safe growth of educational model rocketry the world over. Have a grand year, and great flying.

Sincerely,
VERN ESTES

HERE'S HOW TO USE YOUR ESTES CATALOG.

- ① Name of the kit.
- ② Skill Level number recommends the general skill and experience necessary for a rocketeer to successfully complete the kit. Skill Level 1 kits are suggested for beginners, Skill Level 2 for intermediate rocketeers, and so on to Skill Level 5, Expert Rocketeer.
- ③ Special features and additional kit information.
- ④ Specifications including length, diameter, and weight, in both English and Metric Equivalents, plus shipping weight for the kit.
- ⑤ Recommended engines for flying the rocket. Engines are listed from least powerful to most powerful. Also, indicates which engine should be used for the first flight.
- ⑥ Catalog number for kit which should always be used when ordering.
- ⑦ Price of the kit.

NEW! STAR TREK™

Flying Model Rocketry Starter Kit

Complete with everything you need to lift-off in minutes (less battery and glue).

"This Is Where To Begin"

THE STAR TREK STARTER KIT

It's The Perfect Model Rocketry Beginner's Outfit

Imagine the tremendous feeling of excitement as you press the launch button for the first time, and your Star Trek rocket blasts-off on a spectacular cloud of rocket exhaust. Seconds tick away as your bird streaks skyward, reaches apogee, and begins its descent toward earth. Suddenly, with the puff of your engine's ejection charge, the rocket's colorful parachute is fully deployed. With a sigh of relief you know that your first mission has been a success, and your rocket will have a safe, gentle recovery.

Your Star Trek Starter Kit will give you dozens of enjoyable missions just like the first one. High performance Star Trek rocket is easy-to-assemble with quick-release engine mount and bright yellow plastic nose cone and fin unit. Features quick-finish decor with impressive Star Trek wrap-around decal. No painting required! Your model will attain altitudes of over 1,000 feet and return via 12" parachute recovery for flight-after-flight enjoyment.

☐ The Star Trek Launch Control System uses a standard 12 volt lantern battery for power (not included). Futuristically designed Launch Controller features continuity arming lamp, safety interlock key, and ignition launch button.

☐ Engineered for easy assembly, system includes lightweight launch cable, 1/8"x36" two-piece launch rod, micro igniter clips, and mini-blast deflector. Sleekly designed combination launch pad/power cap sets up quickly for launch and disassembles easily for compact storage. The Star Trek Launch Control System can be used throughout your model rocketry career to launch the majority of Estes model rockets.

☐ Flight pack includes three NAR Safety Certified model rocket engines, parachute recovery wadding, and Astron rocket igniters.

☐ Special Bonus - New "Beginner's Tech Manual" featuring a variety of model rocketry data is enclosed to get you started off right! (Recommended batteries: Ray-O-Vac #926, Eveready #732, Burgess TW-2, or N.E.D.A. type #926.)

STAR TREK AND MODEL ROCKETRY!

A WINNING COMBINATION FOR FUN AND EXCITEMENT!

Cat. No. 1418... **ONLY \$9.95**

Shipping weight 1 lb. 2 oz.

DELUXE STARTER OUTFIT

Perfect For The Beginning Rocketeer
Even Includes Construction & Finishing Supplies!

It's all here! This is the most complete starter outfit offered to build, finish, and fly your first model rocket. Launching is only half the fun. Discover the excitement of carrying out the step-by-step assembly of your real flying model. With each construction procedure you take great care to see that everything is just right. Finally, you place the finishing touches on your rocket and you know how professional space scientists feel as they complete final launch preparations on the real thing.

At one low price you get everything needed for assembly, finishing, lift-off, and recovery. Packaged in a sturdy, field operations box with handle, our Deluxe Starter Outfit features:

- ☐ Alpha Rocket Kit with quick-release engine mount, 12" parachute recovery, and balsa parts. Excellent, high performance design for flights up to 1,000 feet.
- ☐ New Astron Launch Control System with safety interlock key, arming lamp, and ignition button. Plus flat-jawed micro-clips, heavy duty battery clips, and 20 feet of launch cable.
- ☐ Rugged Porta-Pad Tripod Launcher with sturdy girder construction, blast deflector plate, 1/8" dia. x 36" two-piece launch rod, and special tilt-adjustment to compensate for wind direction. Also handles larger 3/16" launch rod.
- ☐ Estes "Alpha Book of Model Rocketry" to give you the basics of model rocketry and to really get you into your new hobby. Includes information on stability tests, tracking, multi-staging, boost gliders, scale models, and much, much more.
- ☐ Three Safety Certified Estes Model Rocket Engines for reliability and performance with every launch. Two AB-3 engines are provided for first flights plus a higher powered B6-4 engine for a really spectacular launch.

- ☐ Recovery Wadding to protect your parachute from the engine's ejection gases. Enough for your first series of flights.
- ☐ Astron Igniters for sure lift-offs everytime. Used with new Astron Launch Control System to safely ignite Estes model rocket engines. Enough provided for first series of lift-offs.
- ☐ All necessary construction supplies including hobby knife, sandpaper, and glue.
- ☐ All needed finishing materials including two colors of paint, sanding sealer, thinner, and paint brush.

Super-Complete,
DELUXE STARTER OUTFIT

Cat. No. 1407 **ONLY \$13.95**

ESTES FIRING LINE STARTER KIT

Ready-to-Launch
in Minutes

- ☐ The ideal beginner's outfit for father and son. Comes completely ready-to-launch in 10 to 15 minutes (less batteries). All plastic snap-together construction for easy, quick assembly.
- ☐ Ready-to-fly Vampire model rocket features operational status decor and easy-lock engine mount. Pre-assembled 10" parachute for launch-after-launch excitement.
- ☐ Portable Firing Line Launch System is regularly designed to provide countless launches. Easy grip hand held Launch Controller has advanced safety interlock key and distinctive launch control button. Realistic launch pad features 24" two-piece launch rod, pre-soldered micro-clips, mini-blast deflector, and sturdy girder construction. The entire system is pre-wired. (Requires four alkaline penlight batteries, size AA, for operation.)
- ☐ Firing Line Flight Pack includes 3 NAR Safety Certified A3-4T mini-engines, parachute recovery wadding, and Estes advanced Solar igniters.
- ☐ A special model rocketry tech manual is also enclosed for the novice.

Sky Dart

Skill Level 4

This totally new rocket-boosted glider design features an internal rear ejection power pod. Streamline "Business SST" body styling results in a high performance glide along with good reliability. 12" parachute recovery brings power pod back safely. Pat. No. 3,157,960.

Specifications

Wing Span 12.6" (31.8cm)
Length 15.8" (40cm)
Body Dia. .976" (24.8mm)
Weight 1.25 oz. (35.4 g)
Weight of Glider with Pod 2.5 oz. (70.8 g)
Shipping wt. 12 oz.

SCISSOR-WING FLIGHT PROFILE

The Scissor-Wing Transport represents a major advancement in boost-glider technology. This unique glider launches straight up with its main wing held parallel to the body tube. Shortly after reaching apogee, the engine's ejection charge jettisons the internal power pod causing a weight shift and the pivoting of the main wing to a perpendicular glide position. Then, settling into a gentle glide, the Scissor-Wing begins its descent to Earth. The power pod is recovered via parachute.

SCISSOR-WING TRANSPORT

Skill Level 3

This exciting bird introduces the revolutionary new Scissor-Wing concept. Features super SST styling and high flight reliability. Capable of glide times of more than 60 seconds. Internal ejection power pod features vertical stabilizer fins. Comes ready-to-assemble with die-cut parts and two-color decals.

Specifications

Length 22.75" (57.7cm)
Body Dia. 0.976" (2.48cm)
Wing Span 16" (40.6cm)
Weight w/pod 2.5 oz. (71 g)
Weight w/o pod 1.8 oz. (51 g)

U.S.S. ATLANTIS

Skill Level 3

Patrolling the distant outposts of our galaxy are super-fast starships like the USS Atlantis. This multi-mission star cruiser is designed for patrol, escort, transport, and fleet battle operations. Star flight capability is provided by two giant aft propulsion units. The unique, multi-level flight deck allows massive planet-side operations from synchronous or standard planetary orbit. In addition to superior speed and maneuverability, its powerful weaponry enables it to deal singlehandedly with most alien vessels. Kit includes colorful decals, die-cut balsa fins, plastic nose cone, and quick-release engine mount. Excellent performance with impressive 12" parachute recovery for flight after-flight enjoyment.

Specifications

PHOTON DISRUPTOR

Skill Level 2

Equip your star fleet with this sophisticated scale missile from the 23rd century. Designed primarily as a mass conversion weapon to overload the defensive screens of an enemy vessel, the actual Photon Disruptor may also be programmed as an interceptor missile, a proximity space mine, or a space distress signal. Exact size, speed, range, and destruct radius of this vehicle are classified. Photon Disruptor uses impulse power unit and guidance system for launch from planetary surface. Kit features operational status detailing decor and comes complete with 12" parachute. Assembly and operation are made easy with plastic nose cone, die-cut balsa parts, and quick-release engine mount.

ROCKETRONICS

AERIAL TRANSMITTERS

Remote sensing and reporting by telemetry is now practical. The TRANSROC (TX-1) is your basic unit. This tiny transmitter requires no FCC license, yet sends back a clear signal with a range of 5 miles while in flight and of hundreds of yards while on the ground. The closer you are to the TRANSROC, the stronger the signal becomes. In its basic mode it transmits an intermittent "beep" for tracking. Any standard walkie-talkie may be used as the receiver, Channel 14 is standard, but other channels of the 27 MHz. Citizen's Band are available by using the proper crystal. Adding accessory kits to the basic mode requires only a little time and a few small circuit changes for each. In the microphone mode (TXA-1) the TRANSROC lets you listen to everything from the unique position of on-board the rocket. The Spin-Rate Telemetry Kit (TXA-2) lets you study the effects of different aerodynamic shapes and unusual fin alignments. The Temperature Telemetry Kits (TXA-3 and TXA-4) permit you to make temperature versus altitude studies. Spotting temperature inversions for predicting pollution buildups is great fun. The TRANSROC opens up a whole new world of exciting scientific research.

TRACKING EQUIPMENT

PREDICTED ALTITUDE COMPUTER

The Estes Pocket Size Altitude Computer enables any rocketeer to predict his model rocket's performance in a matter of seconds. Just move the center slide in a simple procedure for fast accurate results. Three color calculator comes complete with instructions. Ship. wt. 3 oz. Cat. No. 9015 \$.85

ALTISCOPE

Find out how high your rocket went with this Altiscope! Comes in kit form complete with instructions, trig tables, technical report TR-3 on altitude tracking and 2-D altitude computer. Patent No. 3,208,147. Ship. wt. 20 oz. Cat. No. 1415 \$6.95

LAUNCH SUPPLIES

ADD-ON ROD: Sturdy 7/8" diameter, 18" long launch rod section expands two-piece rod to 53" length. Ship. wt. 6 oz. Cat. No. 2236 \$.35 per section

LEAD WIRE: Size 18 two-conductor insulated wire. Ideal as lead from firing panel to launcher. In 18 foot lengths. Ship. wt. 5 oz. Cat. No. 85841 \$.95

SWIVEL ASSEMBLY: Provides 360° rotation and full tilt adjustment, yet locks in selected position. Handles 1/8" rod, 3/16" rod, and C-rail. Ship. wt. 3/4 oz. Cat. No. 2219 \$2.00

MASKING TAPE: Use to secure engines in models, mask for painting, etc. 1/2" wide, in 30' rolls. Ship. wt. 5 oz. Cat. No. 2508 \$.75

BATTERY CLIPS: Hook-up to car batteries. Heavy-duty clips connect to terminals up to 1" in dia. With insulators. Ship. wt. 5 oz. Cat. No. 2245 2 for \$1.25

DELUXE BLAST DEFLECTOR: Durable pressed steel plate deflects engine blast outward away from launcher. Ship. wt. 5 oz. Cat. No. 2240 \$.85

Fin-Kwik

ASSEMBLING FIXTURE

Fast!
Simple!
Accurate!

- Position and Glue Fins Quickly and Easily
 - Fits Body Tubes up to BT-70
 - Designed for either 3 or 4 finned rockets
 - Aligns fins exactly at 90° or 120° to each other
 - Heavy duty metal construction
 - Completely adjustable
- Cat. No. 2713 ONLY \$7.95

NICHROME WIRE: Model rocket ignition wire. No. 30 recommended for use with car batteries, No. 32 for use with other power supplies. No. 30, 15-Foot Roll: Cat. No. 2228 \$.75
No. 32, 15-Foot Roll: Cat. No. 2229 \$.95

ARMING LIGHT LAUNCH PANEL HOLDER: Steel with 1/2" red plastic jewel, mounts in 7/16" hole. Takes 6 or 12 volt bulbs, not included. Ship. wt. 4 oz. Cat. No. 2355 \$1.25

6 VOLT BULB: Fits holder Cat. No. 2355. Ship. wt. 1 oz. (Type 51.) Cat. No. 38020 \$.30

12 VOLT BULB: Fits holder Cat. No. 2355. Ship. wt. 1 oz. (Type 53.) Cat. No. 38021 \$.30

KEY SAFETY SWITCH: Prevents accidental launching of rockets. SPST, turns on with key, must be turned off to remove key. Mounts in 1/2" hole. One key included. Ship. wt. 4 oz. Cat. No. 2350 \$4.00
EXTRA KEY: Cat. No. 2351 \$.70

PUSH BUTTON SWITCH: Heavy duty construction, momentary type, SPST, normally open. Excellent for use as a firing switch. Mounts in 1/2" hole. Ship. wt. 4 oz. Cat. No. 38140 \$1.75

ROTARY SWITCH: Twelve position single pole rotary switch — use as a selector with multiple firing systems. Non-shorting, mounts in 3/8" hole. Ship. wt. 5 oz. Cat. No. 38145 \$2.75

LAUNCH RAILS: Rigid aluminum 'C' rails offer countless possibilities for launcher designs.

'C' RAIL: 3/8" square (outside). Comes in 18" long sections. Durable aluminum for long life and rust-free service. Use at least 2 sections connected with a joiner (see below). Ship. wt. 6 oz. Cat. No. 38095 2 for \$2.00

RAIL JOINER: Spring clip 2" long by 1/4" wide, fits inside rail ends, holds two rail sections securely together. Ship. wt. 2 oz. Cat. No. 2252 \$.65 each

DIAL PLATE: Numbered 12 position plate for use with rotary switch Cat. No. 38145. Mounts on panel with same nut used to hold switch. Ship. wt. 1 oz. Cat. No. 38050 \$.65

UNIVERSAL SAFETY KEY: Replacement safety interlock key for Solar Launch Controller (#2300) and the Astron Launch Control System (#2212). Cat. No. 38099 \$.25

PARACHUTE KITS: Get the best in parachute recovery! Two-color printed plastic 'chutes give maximum visibility — feature easy-to-see pattern. Lightweight, durable, and easily folded. These 'chutes are only 0.0075" thick, allowing the most material to be packed into the least body space. Each kit comes complete with 'chute material, tape strips, and shroud lines. Shipping weight 2 oz.

Cat. No. 2281 6 for \$.50

TAPE DISCS: Fasten shroud lines to plastic parachutes or streamers with these 3/4" pressure sensitive Tape Discs. In sheets of 6 discs. Shipping weight 1 oz.
Cat. No. 2294 4 sheets of 6 for \$.65

TAPE STRIPS: For top strength, low bulk and low weight, fasten shroud lines with these 1/4" x 3/4" tape strips, in sheets of 12 strips. Shipping weight 1 oz.
Cat. No. 38412 6 sheets of 12 for \$.80

SNAP SWIVELS: For quick changes and reduced tangling in your recovery systems, use these tiny 1" long snap swivels. Net weight .01 oz. Shipping weight for 12 swivels, 1 oz.
Cat. No. 2292 12 for \$1.00

PARTS SELECTION

Once you have constructed several model rocket kits and have become familiar with the basic Estes Technical Reports you will no doubt have a variety of ideas for unique designs of your own. In order to select the proper parts for your original design it is important for you to understand our system of parts description numbers.

Nearly all matching Estes parts have the same series description number. Those which do not feature an additional explanation as to where they can be used. Normally, parts listing the same series description number will be interchangeable with each other. For instance, a #20 body tube (BT-20) would mate with a #20A balsa nose cone (BNC-20A), a #20C payload section (PS-20C), or a #20B engine block (EB-20B). Further, 1 #2060 tube adapter (TA-2060) will adapt a BT-20 to a BT-60, and a #5055 centering ring (AR-5055) will center a BT-50 within a BT-55. By using balsa or paper adapters almost any combination of parts can be joined together. For ordering, be sure to use both the catalog number and the series description number (name).

Notes:

Payload Sections include nose cone, body tube, and adapter or bulk head.

Nose cone dimensions listed in columns 1, 2, and 3.

In "Description" column BNC stands for balsa nose cone and PNC for plastic nose cone.

For I Series Mini-Engine 6" x 1.75"	3153	EM-520	\$.60	BT-20	0.09	5
Special Purpose Quick-Change Conversion Mount—From Series IV Engines to Series I & II Engines	3154	EM-2050	\$.70	BT-50	0.19	5

Use Estes, high performance engine mounts for your original designs. All engine mounts feature easy-to-assemble instructions and lightweight components.

ENGINE BLOCKS

Used for positioning the engine in the rocket. Provides a hollow bulkhead for the engine to develop thrust against, as well as an opening for gases to pass for normal ejection.

Cat. No.	Description	Price 3 for	Outside Dia.	Inside Dia.	Length	Fits	Weight in Oz. Net.	Ship.
3131	EB-20A	3/\$.40	.708"	.65"	1/4"	BT-20	.009	1

70164	NB-60	\$.80	1.595"	1-1/2"	BT-60	.190	4

BALSA ADAPTERS

Adapters give flexibility for rocket design. Switch from one size body tube to another for payload capsule, parachute compartments, propulsion sections, etc. Adapters fitting BT-20 can be built-up with masking tape to fit BT-30. Any adapter can be hollowed to make a passage for ejection gases. All adapters have at least 1/4" mating surface on each end.

CENTERING RINGS

AR-2050 CENTERING RINGS

For centering a BT-20 body tube within a BT-50. Greater strength makes for use with high thrust engines. Weight per pair .285 oz. Shipping weight 3 oz.

Cat. No. 3100 10 for \$.80

AR-5055 CENTERING RINGS

To center a BT-50 tube in a BT-55 body tube. Extra strong for "D" engine mounts. Weight 0.062 oz. each. Shipping weight 2 oz.

Cat. No. 3102 4 for \$.60

PAPER ADAPTERS

MULTI-PURPOSE SET — Includes a total of 20 rings for positioning BT-5 in BT-20; BT-5, BT-20, BT-30 in BT-50, and BT-5, BT-20, and BT-50 in BT-60. Also three universal tapered shrouds and instructions. Shipping weight 2 oz.

Cat. No. 8030 \$.55

RA-2050 RINGS — 20 rings for centering and mounting BT-20 in BT-50. Shipping weight 2 oz.

Cat. No. 3110 \$.50 per set

RA-2055 RINGS — 10 rings for centering and mounting BT-20 in BT-55. Shipping weight 2 oz.

Cat. No. 3111 \$.55 per set

RA-2060 RINGS — 10 rings for centering and mounting BT-20 in BT-60. Shipping weight 2 oz.

Cat. No. 3113 \$.55 per set

FIN STOCK

Top quality balsa sheeting for making fins for model rockets. For maximum strength, grain of wood should follow the leading edge of fin. Read FINS in Vol. 3, No. 3 of the MODEL ROCKET NEWS for more information.

Cat. No.	Description	Price	Dimensions (In Inches)	Weight in Oz. Net. Ship.	Major Use

A Complete Construction and Finishing Set
One convenient package containing all the tools and supplies recommended for assembling, painting, and decorating most model rockets. Ideal for the beginning rocketeer who doesn't already have modeling equipment. This set helps you build the best models right from the start.

Contents:

- 1 Bottle White Glue
- 3 Emery Boards
- 1 Bottle Sanding Sealer
- 4 Bottles Paint (assorted colors)
- 1 Bottle Thinner
- 1 Gold Mine Special Decal
- 1 United States Decal
- 3 Sheets Sanding Material

- 1 Roll Masking Tape
- 1 X-Acto Knife
- 18 Sheets Sandpaper
- 3 Paint Brushes

Shipping wt. 1.5 lb.

Cat. No. 1400

\$7.25 Value Only \$4.95

LAUNCH LUGS: Super-strength laminated launch lugs feature mylar plastic core for durability, paper outer layer for easy gluing. Inside diameter 5/32", fit 1/8" rod. Ship. wt. 1 oz.
1-1/4" long: Cat. No. 2321 ... 12 for \$.75
2-3/8" long: Cat. No. 2322 ... 10 for \$.75
5" long: Cat. No. 2325 ... 6 for \$.85
8" long: Cat. No. 2326 ... 4 for \$.85

MAXI-ROD LAUNCH LUG: 2" long fits 3/16" dia. rod.
Cat. No. 2328 ... 4 for \$.50

PAYLOAD: How high can your rocket lift an ounce of lead? This 1 oz. payload weight, 3/4" in diameter, is certified for competition. Ship. wt. 2 oz.
Cat. No. 2309
2 for \$1.10

NYLON SCREWS: Extra light, high strength screws for elevon adjustment on boost-gliders. 1/2" long, 1/16" thread diameter.
Cat. No. 9004
6 for \$.90

DOWELS: Extra strong, lightweight, seasoned maple dowels. Ship. wt. 5 oz.
1/8" x 18" - Cat. No. 32056
8 for \$.55
1/12" x 12" - Cat. No. 32058
8 for \$.55

WEIGHTS: Balance rockets for stability.
ROUND LEAD WEIGHTS - 11/16" dia., center hole. Weight: 0.12 oz. each. Shipping wt. 1 oz.
Cat. No. 2305 ... 6 for \$.75
BALANCING WEIGHTS - Flexible lead strips. 3" x 1/4" x 0.02". Weight: 0.085 oz. each. Shipping wt. 1 oz.
Cat. No. 2307 ... 10 for \$.75

FOAM PADDING: Protect payload specimens, pad payload capsules with plastic foam. Pieces are 6" x 6" x 1/4". Can be cut and secured in place with white glue. Net weight 0.08 oz. Shipping wt. 1 oz. Cat. No. 3007
3 for \$.85

REINFORCING: Reinforce fin joints, attach shock cords. 3" x 12" sheets of gauze.
Cat. No. 3006
6 for \$.70
3" x 9" self-adhesive treated paper Cat. No. 3005
6 for \$.70

ENGINE HOLDER: Flat spring steel design gives easy installation and low drag. Recommended for sport and demonstration models built from BT-20 and BT-30, the engine holder is 2.8" long, 0.1" wide and only 0.025" thick. Net weight 0.032 oz. Shipping wt. 1 oz.
Cat. No. 3140
3 for \$.85

KNIFE AND TOOL SET: Contains small, medium, and heavy-duty knives and an entire assortment of blades, gouges, routers, and punches. Plus planer, 1" sander, spokeshave, and balsa stripper. In wooden box. Shipping weight 2 lbs.
Cat. No. 2693 ... \$14.95 each

KNIFE CHEST: Small, medium, and heavy-duty knives plus 9 assorted extra blades. In natural finish wood chest. Shipping weight 1 lb., 8 oz.
Cat. No. 2692 ... \$5.50

DOUBLE KNIFE SET: Nos. 1&2 knives with 10 extra asstd. blades. Shipping weight 8 oz.
Cat. No. 2674 ... \$3.00

PRECISION KNIFE SET: Includes one 4-1/4" long no. 1 aluminum handle and 5 assorted blades. Recommended for precision work. Shipping weight 2 oz.
Cat. No. 2673 ... \$.70 each

HEAVY DUTY KNIFE: Set of one 4-3/4" long and #4 plastic handle with metal chuck and one general purpose knife blade similar to #4G. Shipping wt. 6 oz.
Cat. No. 2689 ... \$1.40 each

UTILITY KNIFE: The 3-Position blade is reversible, retractable, and replaceable! Excellent modeling knife. Shipping weight 3 oz.
Cat. No. 2688 ... \$.30 each

RETRACTABLE BLADE KNIFE: Heavy duty #2 aluminum handle, 4-3/4" long, with one double ended #2D blade. Blade retracts into handle for safe carrying. For general cutting. Shipping weight 4 oz.
Cat. No. 2687 ... \$1.60

RAZOR SAW: Fits #4 handle. 1" wide x 5" long. Use razor saw blade for cutting balsa and body tube. Shipping weight 6 oz.
Cat. No. 2681 ... \$.55 each

FINISHING SUPPLIES

ASTROSEAL Balsa Filler: Gives smooth surface for dope or enamel application. Sand between coats. Four ounce jar. Ship. wt. 7 oz. Cat. No. 2526 .. \$1.35

FLUORESCENT SPRAY PAINT: The brightest colors anywhere. Glowing, high visibility paint in 3 oz. spray cans. Dries in minutes. Rocket Red, Dazzling Orange, Solar Yellow, Brilliant Green, and Vibrant Pink. Specify colors when ordering. Ship. wt. 14 oz. Cat. No. 2640 .. \$1.25

ENAMEL SPRAY PAINT: Top quality enamel in 3 oz. spray cans. Dries in minutes. Use indoors or outdoors. Not fluorescent. Royal Blue, Insignia Red, Yellow, Insignia Orange, Gloss White, Gloss Black, Flat White, Flat Black, Gold, Chrome Silver, and Clear. Specify colors when ordering. Ship. wt. 14 oz. Cat. No. 2620 .. \$1.00

MILITARY FLAT SPRAYS: Perfect paints for scale models, especially the Max-I-Brute German V-2 and Pershing 1-A. In 3 oz. cans. Camouflage Gray, Light Earth, Artillery Olive, and Flat Red. Specify color when ordering. Ship. wt. 14 oz. Cat. No. 2650 .. \$1.00

ENAMEL PAINT: Brushes on smoothly and easily. Perfect for touch-up jobs. 2/3 oz. bottles. Insignia Red, Insignia Orange, Yellow, Royal Blue, Gold, Chrome Silver, Gloss White, Flat White, Gloss Black, Flat Black, Flat Orange and Flat Red. Specify colors when ordering. Ship. wt. 4 oz. Cat. No. 2600 .. \$.45

SANDING SEALER: Fills small holes in balsa, paper and other porous materials, provides a smooth surface for paint or dope. In 1 oz. bottles. Ship. wt. 4 oz. Cat. No. 2525 .. \$.55

THINNER: For diluting enamel, dope, sanding sealer and AstroSeal. Excellent for brush cleaning. 2/3 oz. bottles. Specify type when ordering. Ship. wt. 4 oz. Cat. No. 2619 .. \$.45

Thinner for enamel only. Cat. No. 2541 .. \$.45

WHITE GLUE: Sets fast, gives super strong joints with wood, paper, cloth and other porous materials. In 2 oz. plastic squeeze bottle. Ship. wt. 6 oz. Cat. No. 86016 .. \$.85

BODY PUTTY: Fill cracks, holes, grain marks in balsa parts, make smooth fin-body joints. 1-1/2 oz. tube. Ship. wt. 5 oz. Cat. No. 2503 .. \$.70

FINISHING WAX: For a high gloss finish and low drag. Recommended for use on enamel and butyrate finishes only. In 2 oz. jar. Ship. wt. 5 oz. Cat. No. 2504 .. \$1.25

SANDING MATERIAL: Special mylar plastic backed abrasive sheet can be used over and over again. Extra fine 320 grit in easy to handle 2-1/2" x 2-1/4" sheets. Ship. wt. 1 oz. Cat. No. 2510 6 for \$.70

SANDPAPER: Shape and smooth model rocket parts. Available in three grades. 3" x 3" sheets. Specify grade when ordering. Ship. wt. 1 oz. for 6 sheets. 12 Sheets Medium - Cat. No. 2518 .. \$.60

12 Sheets Fine - Cat. No. 2516 .. \$.60
12 Sheets Extra Fine - Cat. No. 2514 .. \$.70
36 Sheets Assorted (12 ea.) Cat. No. 2512 .. \$.90

PAINT BRUSHES: Two #1 brushes for extra fine work, two #4 brushes for normal work and two #6 brushes for covering large areas rapidly. Sets of six only. Ship. wt. 2 oz. Cat. No. 2505 .. \$1.00

STYRENE CEMENT: 1/2 oz. bottle. For cementing plastic to plastic. Ship. wt. 2 oz. Cat. No. 2532 .. \$.35

1/2 oz. Tube. For cementing plastic to other materials. Ship. wt. 2 oz. Cat. No. 2533 .. \$.30

DECALS

Deluxe Decals for roll pattern and fins. Red, white, orange and black 4" x 9" sheet. Cat. No. 37013 .. \$.70 ea.

Kit Name Decals for your favorite models. Red, white, yellow and black 3-1/2" x 9-1/4" sheet. Cat. No. 37011 .. \$.35 ea.

Gold Mine Special, Decals for lettering, vents, hatches, etc. Red, white, and black 3-1/2" x 9-1/4" sheet. Cat. No. 37005 .. \$.35 ea.

Multi-Purpose Decals featuring a variety of favorite markings. Printed black on clear 3" x 4-1/2" sheet. Cat. No. 37043 .. \$.30 ea.

1/5" Checkerboards for colorful roll patterns. 4-1/4" x 10" sheet. Available in red, black, gold or white. Specify color when ordering. Cat. No. 36935 .. \$.35 ea.

3/8" Checkerboards for authentic roll patterns. 4-1/4" x 10" sheet. Available in red, black, white or gold. Specify color when ordering. Cat. No. 36940 .. \$.45 ea.

Patriot Decal. Features American Eagle roll pattern plus big USA lettering. Gold, black and white 6" x 7-1/2" sheet. Cat. No. 37204 .. \$.45 ea.

Kit Name Decals for your favorite models. 4" x 8-1/4" sheet. Available in black or white. Specify color when ordering. Cat. No. 36930 .. \$.35 ea.

Red, white and blue stars and stripes for fins and roll patterns. 6" x 12" sheet. Cat. No. 37203 .. \$.85 ea.

Futuristic Starship Vega Decals for fins and roll patterns. Red, black and white 5" x 12" sheet. Cat. No. 37205 .. \$.55 ea.

Orbital Transport Decals for fins and body tube decor. Red, black and yellow 4-1/4" x 11" sheet. Cat. No. 37041 .. \$.70 ea.

Red Max fun decals. Black and white skull and cross bones, iron crosses and other crazy markings. 5" x 11-1/2" sheet. Cat. No. 37202 .. \$.55 ea.

Interceptor Decals. Futuristic USAF red, white, blue and black fin and body tube decor. 4-1/2" x 12-1/2" sheet. Cat. No. 37049 .. \$.70 ea.

Color Stripes for body tube and fins. 4-1/4" x 10" sheet with ten stripes 1/32" through 1/2" wide and 9-1/2" long. Available in red, black or yellow. Specify color when ordering. Cat. No. 36950 .. \$.45 ea.

3/8" Letters and Numbers for authentic markings. Available in black or white. Specify color when ordering. Cat. No. 36911 .. \$.30 ea.

1/4" Letters and Numbers to identify your models. Available in black or white. Specify color when ordering. Cat. No. 36920 .. \$.45 ea.

DECORATING TAPE. black: Thin, tough, pressure-sensitive tape is perfect for stripes, bars and other decoration. Only .0015" thick, in rolls 1/2 inch wide and 144 inches long. Ship. wt. 5 oz. Cat. No. 2501 .. \$.40 ea.

ROCKET STABILITY — TR-1: Easy-to-read report explaining how rockets are designed to fly properly, including a before-launch test to assure rocket stability.
Cat. No. 84721 \$.35

MULTI-STAGING — TR-2: A complete easy-to-understand report providing the information needed for designing, building, and flying multi-stage rockets.
Cat. No. 84722 \$.35

ALTITUDE TRACKING — TR-3: The classic work on simple altitude tracking for model rocketeers with easy-to-understand computation.
Cat. No. 84723 \$.35

REAR ENGINE BOOST-GLIDERS — TR-4: Basic information covering design, construction, and operation of rear engine boost-gliders.
Cat. No. 84724 \$.35

BUILDING A WIND TUNNEL — TR-5: Full plans and information for building and using a wind tunnel with data on both hand-powered and motorized versions.
Cat. No. 84725 \$.35

CLUSTER TECHNIQUES — TR-6: The complete report on clustering engines to launch larger payloads.
Cat. No. 84726 \$.35

FRONT ENGINE BOOST-GLIDERS — TR-7: Valuable information on designing, building, and flying front engine boost-gliders.
Cat. No. 84727 \$.35

MODEL ROCKETRY STUDY GUIDE — TR-8: A planned sequence of activities to guide anyone toward becoming an expert model rocketeer.
Cat. No. 84728 \$.85

ALTITUDE PREDICTION CHARTS — TR-10: Explains a relatively simple method by which aerodynamic drag and other atmospheric effects can be taken into account in predicting rocket peak altitude.
Cat. No. 84730 \$1.25

AERODYNAMIC DRAG OF MODEL ROCKETS — TR-11: All factors that influence drag are explained, and practical examples of ways to minimize drag are given.
Cat. No. 84731 \$1.25

THE ALPHA BOOK OF MODEL ROCKETRY: The things you will want to know before, during, and after your first flights are explained to help you get the most fun from your new hobby.
Cat. No. 2820 \$.60

PROJECTS IN MODEL ROCKETRY: Suggestions on how to plan, prepare, and present model rocketry research projects. Perfect for Science Fair entries. Ideas for about 100 projects.
Cat. No. 2831 \$.60

P

MODEL ROCKET LAUNCH SYSTEMS: An easy-to-understand booklet covering basic electrical theory, launcher design, multiple launchers, and electrical math.
Cat. No. 2811 \$.35

SPACE AGE TECHNOLOGY: A comprehensive mini-text for use in aerospace education, science, and industrial arts classes.
Cat. No. 2813 \$1.25

A "Teacher's Manual" (Cat. No. 2823) is available to educators for \$1.25.

ESTES MODEL ROCKET CONTEST GUIDE: Great for planning model rocket contests and meets. Features rules for exciting competitive events plus suggestions for contest organization.
Cat. No. 2815 \$.60

AEROSPACE EDUCATION AND MODEL ROCKETRY: An excellent teacher's guide for introducing model rocketry into the classroom.
Cat. No. 2816 \$1.25

(Single copies free to educators requesting it on school stationery.)

ESTES GUIDE FOR AEROSPACE CLUBS: Features complete details for club organization and activities.
Cat. No. 2817 \$.60

MODEL ROCKET ENGINES — TN-1: Large time-thrust curves suitable for use in displays, plus other data.
Cat. No. 84700 \$.35

MODEL ROCKET ENGINE PERFORMANCE — TN-2: Technical information. Includes formulas for calculating engine performance.
Cat. No. 84701 \$.35

IS THAT PARACHUTE TOO BIG? — TN-3: Information on model rocket recovery systems with suggestions on modifying parachutes.
Cat. No. 84702 \$.35

THE FINE ART OF PAYLOAD LAUNCHING — TN-4: Information on payload launching with data on possible payloads, available payload compartments, and suggestions on preparation and launch of payloads.
Cat. No. 84703 \$.35

ELEMENTARY MATHEMATICS OF MODEL ROCKET FLIGHT — TN-5: Math altitude determination, velocities, and accelerations.
Cat. No. 900,677 \$.35

MODEL ROCKETRY TECH MANUAL: Handy pocket-size manual with lots of information including construction hints, finishing procedures, stability tests, staging techniques, recovery methods, launch system wiring, and much, much more.
Cat. No. 2819 \$.35

MARS SNOOPER II

Skill Level 4

Looks like a real space ship. Futuristic decor, advanced styling, and simulated touch-down pads gives it a real science-fiction appearance. Eye-catching flights with big 18" parachute recovery. Includes die-cut parts, kit decals, and quick-release engine mount.

Specifications

Length 22.3" (56.5cm)
Diameter 0.976" (24.8mm)
Weight 2.3 oz. (66 g)
Shipping wt. 8 oz.

Recommended Engines

A8-3 (First flight) B4-2 B6-4 C6-5
Cat. No. 1220 \$5.00

MARS LANDER

Skill Level 5

Displays a futuristic concept for a planetary exploration and landing vehicle. Spring-loaded landing gear simulates realistic upright touch-down. Big 18" bright orange and white canopy chute makes for a really great recovery sequence. Includes highly detailed body panels, colorful scale-like decals, and quick-release engine mount.

Specifications

Height 12" (30.5cm)
Diameter 3.8" (96.5mm)
Landing Gear Span 13.2" (33.5cm)
Weight 3.0 oz. (85 g)
Shipping wt. 16 oz.

Recommended Engines

B4-2 (First flight)
B6-2 C6-3
Cat. No. 1243
\$9.95

Engines, Launch System, and Glue not included.

INTERPLANETARY VOYAGERS

Our most exotically designed vehicles to give our rocketeers a real look into the future. Build one of these magnificent birds and journey into the year 2001 and beyond. All kits come complete, ready-to-assemble with instructions. Engines not included.

INTERCEPTOR

Skill Level 3

Futuristic version of real interplanetary interceptor. Deep space exotic design makes it the pride of any modeler. Delivers excellent performance for really sensational flights. Dramatic 18" parachute recovery, two big sheets of four-color decals, and quick-release engine mount. Plus all die-cut balsa parts and detailed plastic nose cone, wing pods and tail cone.

Specifications

Length	26" (66cm)
Wing Span	7.4" (18.8cm)
Diameter	1.325" (33.6mm)
Weight	3.85 oz. (109 g)
Shipping wt.	12 oz.

Recommended Engines

B4-2	B6-4 (First flight)	C6-5
Cat. No. 1250		\$8.00

Replacement Plastic Parts Kit

Includes nose cone, 2 wing pods and tail cone,	
Cat. No. 45010	\$2.50

Orbital Transport

Skill Level 4

Features dramatic space shuttle concept. Developed for both orbital and near-space missions. Long and sleek transport ship lifts-off vertically with shuttle riding piggy-back. At engine ejection transport returns via 18" parachute and shuttle becomes gliding re-entry vehicle. Separation of crafts at apogee makes for exceptionally spectacular flights. Includes quick-release engine mount and realistic three-color decals.

TRANSPORT SHIP

Length	23" (58.4cm)
Diameter	0.976" (24.8mm)
Wing Span	7.9" (20cm)
Weight	2 oz. (57 g)

RE-ENTRY VEHICLE

Length	8.6" (21.8cm)
Diameter	0.736" (18.7mm)
Wing Span	5" (12.7cm)

Andromeda

Skill Level 3

Designed for journeys to distant planets this incredible "starship of the future" will be an outstanding addition to your model rocket collection. Performing interplanetary missions within the galaxy, our engineer's conception of the actual ship features simulated hybrid fission-ion propulsion engines, forward crew module and colorful mission decor. This beauty is over 43" long and represents a unique entry to our own Starship Fleet. Kit features include die-cut parts, highly detailed decals, and quick-release engine mount. Andromeda's flights are of course most spectacular, especially with giant 18" parachute recovery.

Specifications

Length	43.3" (110cm)
Diameter	0.736" (18.7mm)
Fin Span	11.8" (30.1cm)

Weight	3.0 oz. (85 g)
Ship wt.	11 oz.

Recommended Engines

B6-4 (First flight)	C6-5
Cat. No. 1273	\$6.00

Engines, Launch System, and Glue not included.

constellation

Skill Level 3

Sleekly styled single-stage payload, perfect for those smaller cargos. Exotic appearance, plus fin tip "landing shocks" gives it a real "space ship" look. Great performance for sport flying. See-through payload section, and 12" parachute recovery.

Specifications

Length 16.2" (41.4cm)
Diameter 0.976" (24.8mm)
Weight 1.0 oz. (28 g)

MISSION Previous is excerpt from first re-
port of contact with Alien Invaders.

Skill Level 3

By computer enhancement of declassified portions of sensor readings, Estes engineers have produced a replica of the Alien Invader spacecraft. Available data indicates alien spacecraft capable of limited atmospheric operations. Precise crew complement, internal features, and weaponry not determined from sensor data secured by Riegel IV outpost before aliens disengaged and fled. Your model includes a plastic forward command hull, engine-engineering section, and outboard atmospheric propulsion units. Kit is complete with die-cut balsa parts, quick-release engine mount, 12" chute, and unusual battle insignia decals.

Specifications

Length 20.5" (52cm)

KLINGON BATTLE CRUISER

Skill Level 4

Your Star Trek collection won't be complete without this flying scale model of the Enterprise's chief adversary, the Klingon Battle Cruiser. Although slightly smaller and without the luxuries found on Federation Starships, these cruisers from the Klingon Empire are capable of extended starflight at ultra-light speeds. Their powerful weaponry and warrior crews are a match for any starship and pose a constant threat to the security of Federation space perimeters. Accurately detailed, our flying scale cruiser has been modified to permit atmospheric operations. Kit includes accurately detailed molded plastic and die-cut parts, Klingon warship insignia, quick release engine mount and colorful orange and white canopy 'chute. A really terrific display model, our Klingon replica has excellent performance for sensational flights.

Specifications

Length 15.1" (38.4cm)
Wing Span 8.9" (22.6cm)
Weight 2.5 oz. (70 g)
Shipping wt. 12 oz.

Recommended Engines

B4-2 (First flight) B6-4 C6-5

STARSHIP ENTERPRISE

Skill Level 4

The United Space Ship Enterprise was commissioned by the United Federation of Planets to maintain order and explore the uncharted regions of our galaxy. Assembled in space in the 23rd century, this gigantic vessel carried Captain Kirk, First Officer Spock and more than 400 officers, scientists and crew to "where no man had gone before." Scaled from official Federation drawings, our model starship has been modified for operations within planetary atmospheres. A parachute recovery probe attaches quickly for flight and removes easily for display. Other kit features include highly detailed molded plastic and die-cut parts, authentic full-color starship decals, quick-release engine mount and 18" recovery parachute. A challenging model to build, it is truly spectacular to fly and impressive to display.

Specifications

Display Length 16.8" (42.6cm)
Recovery Probe Length 25.9" (65.8cm)
Primary Hull Dia. 7.5" (19cm)
Weight 3.8 oz. (110 g)

MILITARY SCALE MODELS

V-2 (1/49th Scale)

Skill Level 3

Scale model of the WW II German ground-to-ground ballistic missile. Its development opened the door to the exploration of space. The V-2 was the first rocket to solve the problems of propulsion and guidance. Our replica of this historic missile has excellent performance with impressive 12" parachute recovery. Ready-to-assemble with balsa nose and tail cones.

These distinctive models are exciting replicas of real rockets and missiles. Many feature highly detailed parts and authentic decor for a perfect scale appearance.

All kits come complete, ready-to-assemble with instructions. Engines not included.

HONEST JOHN

Skill Level 4

Highly detailed version of U.S. Army's surface-to-surface ballistic missile. Many small parts and authentic decals for a really good looking 1/24th scale model. Gives an excellent challenge to the experienced rocketeer. Dramatic flights with 12" parachute recovery.

Specifications

Length 13.75" (35cm)
Diameter 0.976" (24.8mm)

BOMARC

Skill Level 4

A beautifully detailed, 1/24th scale rendering of the U.S.A.F. surface-to-air interceptor missile. Features molded plastic components, and die-cut balsa parts. Big, authentic decals, vinyl

NIKE AJAX

Skill Level 3

The first supersonic anti-aircraft missile, the Nike Ajax, was developed to defend large cities and industrial complexes against enemy bomber attack. Actual vehicle has a range of 30 to 50 miles and an effective altitude capability of approximately 60,000 feet at a speed of more than 1500 miles per hour. Real vehicle is boosted by a solid propellant rocket which drops away at a predetermined height as a sustaining liquid propellant motor cuts in. Our 1/24-to-1 semi-scale model comes complete with authentic U.S. Army decor and realistic detailing. Kit includes 18" parachute recovery, die-cut balsa parts, and quick-release engine mount.

Model Rocketry's First Scale Space Shuttle

Skill Level 4

Dramatic 1/162nd scale reproduction of America's newest space vehicle. Designed as a reusable near space transportation system, first tests of the real thing are scheduled for the fall of 1976. NASA's Space Shuttle will be a multi-mission vehicle designed to perform such missions as the delivery and recovery of orbital payloads and space laboratory research. Semi-scale orbiter employs glider recovery just like the real thing while boosters and external tank return via 18" parachute recovery. Our model features special stabilizer fins for atmospheric flight which remove easily for display. Kit components include injection molded and vacuformed plastic and die-cut parts plus quick-release engine mount.

Specifications

Shuttle Length 13.6" (34.5cm)
Diameter 2.04" (51.8mm)
Orbiter Length 9.0" (22.9cm)
Orbiter Wingspan 7.1" (18.0cm)
Weight 4.37 oz. (124 g)
Shipping wt. 16 oz.

Recommended Engine

C6-3 Cat. No. 1284 .. \$8.00

RUSSIAN VOSTOK (1/76th Scale)

Skill Level 3

Dramatic semi-scale, profile model of the famous Russian space booster which carried man into space for the first time on April 12, 1961. Responsible for establishing a foundation for the Russian space program, Vostoks set 21 world space records during the six missions between 1961 and 1963. Our profile version of this historic space vehicle looks great on display and realistic on the pad. Kit features include preprinted fins, quick-release engine mount, and realistic Russian decor. Big 18" parachute recovery makes for super-exciting flights.

Specifications

Length 19.75" (50cm)
Diameter 1.325" (34mm)

German V-2

Skill Level 3

This giant scale model is a replica of the ground-to-ground ballistic missile developed at Peenemunde before and during World War II. The United States captured many of these rockets during World War II and used them as test vehicles at White Sands during the late 1940s and early 1950s. The last V-2 firing was made at the White Sands Proving Ground in December, 1952.

This 1/19th scale Maxi-Brute features "D" engine power, detailed plastic nose cone, dual 24" parachute recovery and pre-shaped fins. Nose cone fits BT-101 tube. Model requires a 3/16" launch rod for best lift-off performance. This historic reproduction will be the attention getter at your launch site and a handsome display model for your desk or bookshelf. Historical background is also included with instructions.

Specifications

Length 33.5" (85cm)
Diameter 3.938" (100mm)
Weight 12.5 oz. (354.38 g)
Shipping wt. 2 lbs.
Recommended Engine D12-3
Cat. No. 1267

\$16.95

NEARLY 3 FEET TALL

HONEST JOHN

Skill Level 3

Our newest Maxi-Brute is a 1/9th scale model of the famous U.S. Army surface-to-surface, supersonic ballistic missile. Listed as a 762mm, very heavy field-artillery rocket, the real M31 series Honest John follows a free-flight trajectory similar to that of an artillery shell. First developed as a JATO booster for other missiles, the motor had such tremendous thrust that a warhead and fins were added to make it a separate rocket. Completely mobile, the Honest John can be carried by and fired from a regulation Army truck. A small team of only five or six men is required for handling and launching. Employing a solid-fuel rocket motor it has high reliability coupled with great accuracy over a range of 15 to 30 miles. Producing a thrust of 90,950 lbs. it travels at speeds of Mach 1.5 and is capable of delivering a nuclear or high explosive warhead. Spin motors provide initial stabilization at lift-off. One of the main stays of the Army's tactical atomic-weapons system, the Honest John has been operational with U.S. Pentomic airborne and infantry divisions, and overseas with our NATO forces.

Our new, highly detailed version of this well known rocket uses single "D" engine power for truly realistic lift-offs.

Smaller diameter body should make it our best performing Maxi. Comes with pre-shaped, accurately scaled fins and molded plastic nose cone, plus quick-release engine mount and additional scale background data. Spectacular recovery with giant, dual 24" orange and white canopy 'chutes. Great for demonstrations and perfect as an impressive display model. A 3/16" launch rod is recommended for best lift-off results.

Specifications

Length 37" (94cm)
Diameter 2.6" (66mm)
Weight 14 oz. (397 g)

Recommended

Engine D12-3
Cat. No. 1269

PERSHING-1A

Skill Level 3

This Maxi-Brute is a true scale model of the United States Army surface-to-surface ballistic missile produced by the Martin-Marietta Corporation, Orlando Division. Development of the Pershing missile began in 1958 with the first test firing taking place two years later at Cape Kennedy. The Pershing had the most successful testing record of any tactical missile. Pershing Missile Battalions continue to conduct annual firings at the White Sands Missile Range. The Pershing is completely mobile and is deployed with the United States, Federal Republic of Germany, and NATO Units in Europe.

Our 1/10 scale Pershing 1-A is "D" engine powered with three color decals, pre-shaped fins, detailed molded plastic nose cone, and dual 24" parachute recovery. A 3/16" launch rod should be used for best lift-off results.

The unusual fin configuration of this model makes it one of the most unique scale models ever to be offered. Additional historical background data is also included.

Specifications

Length 41" (104.14cm)
Diameter 3.938" (100mm)
Weight 11.5 oz. (326.03 g)
Shipping wt. 2 lbs.

Recommended Engine D12-3
Cat. No. 1268
\$16.95

BOTH OVER 3 FEET TALL

Engines, Launch System, and Glue not included.

MAXI-BRUTES

SATURN 1-B (1/70th Scale)

Skill Level 5

Completely detailed model of the giant rocket that first lofted the lunar module into earth orbit. A real NASA workhorse, the Saturn 1B has most recently been used to shuttle astronaut crews to Skylab. Features four-engine cluster power for really dramatic lift-offs. Highly scaled escape tower and stabilizer fin assembly. Includes authentic U.S.A./NASA decor, quick-release engine mounts, and die-cut balsa parts. Plus big, dual 24" orange and white parachutes for main booster and 12" chute for Apollo capsule. Tech report on engine clustering also included.

Specifications

Length 37" (94cm)
Diameter 3.938" (100mm)
Weight 9.9 oz. (280 g)
Shipping wt. 3 lbs., 5 oz.

Recommended Engines

A8-3 B6-2 (First flight)
B6-4 C6-5

(4 engines required. All must be the same type.)

Cat. No. 1229 \$14.95

(1/100th Scale)

SATURN V

Skill Level 5

A truly magnificent scale reproduction of the world's most famous rocket...the mighty Saturn V. First space vehicle to carry men to the moon and most recently utilized to place Skylab in orbit around the earth. Scaled to 1/100th of its actual size, our model stands an impressive 43-1/2" tall. Single "D" engine power gives this baby a spectacular Cape Kennedy style lift-off. Apollo capsule has life-like recovery with bright 12" orange and white canopy chute while big ship returns on giant dual 24" parachutes. Precision molded plastic engine nozzles and Apollo capsule with escape tower give detailed authenticity. Corrugated body wrappings make this one of our most precise scale models. Also includes Tech Report on clustering.

Specifications

Length 43.5" (110cm)
Diameter 3.938" (100mm)
Weight 9.9 oz. (280 g)
Shipping wt. 3 lbs., 5 oz.

Recommended Engines

May be flown as 3 engine cluster or single engine.

Cluster Power: C6-3 (3 required)

"D" Power: D12-3 (1 required)

Cat. No. 1236 \$19.95

Engines, Launch System,
and Glue not included.

Get more out of model rocketry... Join the **estes** aerospace CLUB

The most exciting hobby on Earth is even more fun when you are a member of the most exciting rocket club on Earth — The Estes Aerospace Club.

As soon as you join, you'll receive your own special EAC membership kit which includes the following exciting items:

VIPER ROCKET — Special kit designed exclusively for members of the Estes Aerospace Club. Features sleek styling, parachute recovery, and Mini-Brute power for maximum high performance.

MEMBERSHIP CERTIFICATE — Handsome membership certificate suitable for framing.

CLUB EMBLEM — Official iron-on patch with EAC insignia for tee shirt or jacket. And as you progress to higher skill levels, you'll receive additional iron-on "thrust bars" signifying your achievements.

DECAL SHEET — Special EAC rocket decals to identify your models as part of the EAC fleet.

RANGE BOX STICKERS — Bright, multipurpose stick-ons for your range equipment.

EAC STATIONERY — Distinctive rocketeer stationery for your most important notes and letters.

MODEL ROCKETRY TECHNICAL MANUAL — Includes information on construction techniques, finishing, stability, tracking, recovery systems, multi-staging, and boost gliders, plus many other subjects.

MODEL ROCKET NEWS — Features free plan designs, technical articles, cartoons, contests, construction hints, rocketeer contributions, special projects, and much, much more.

EAC PRODUCTS SHEET — Special club flyer featuring outstanding offers for EAC kits, parts and accessories, rocket plans and technical publications which are available ONLY to members.

Membership in the Estes Aerospace Club opens up a whole new world of exciting model rocket activities. Your EAC Membership Kit is just the beginning.

You'll be eligible to participate in special projects and exciting contests open only to EAC members — many of them involving valuable prizes. As an official EAC club member you will be eligible for exclusive kits and special product offers. You'll have the opportunity to be selected as a member of the EAC Advisory Board which will suggest new product ideas to Estes Industries.

Further details on all these exciting programs and club services will be included with your EAC Membership Kit. Your EAC membership will remain in effect for as long as you remain an active Estes rocketeer.

Cat. No. 1447 EAC Membership Only \$2.50

MODEL ROCKETRY SAFETY CODE

1. **CONSTRUCTION** — My model rockets will be made of lightweight materials such as paper, wood, plastic and rubber, without any metal as structural parts.
2. **ENGINES** — I will use only pre-loaded factory made model rocket engines in the manner recommended by the manufacturer. I will not change in any way nor attempt to reload these engines.
3. **RECOVERY** — I will always use a recovery system in my model rockets that will return them safely to the ground so that they may be flown again.
4. **WEIGHT LIMITS** — My model rocket will weigh no more than 453 grams (16 ozs.) at liftoff, and the engines will contain no more than 113 grams (4 ozs.) of propellant.
5. **STABILITY** — I will check the stability of my model rockets before their first flight, except when launching models of already proven stability.
6. **LAUNCHING SYSTEM** — The system I use to launch my model rockets must be remotely controlled and electrically operated, and will contain a switch that will return to "off" when released. I will remain at least 10 feet away from any rocket that is being launched.
7. **LAUNCH SAFETY** — I will not let anyone approach a model rocket on a launcher until I have made sure that either the safety interlock key has been removed or the battery has been disconnected from my launcher.
8. **FLYING CONDITIONS** — I will not launch my model rocket in high winds, near buildings, power lines, tall trees, low flying aircraft, or under any conditions which might be dangerous to people or property.
9. **LAUNCH AREA** — My model rockets will always be launched from a cleared area, free of any easy to burn materials, and I will only use non-flammable recovery wadding in my rockets.
10. **JET DEFLECTOR** — My launcher will have a jet deflector device to prevent the engine exhaust from hitting the ground directly.
11. **LAUNCH ROD** — To prevent accidental eye injury I will always place the launcher so the end of the rod is above eye level or cap the end of the rod with my hand when approaching it. I will never place my head or body over the launching rod. When my launcher is not in use I will always store it so that the launch rod is not in an upright position.
12. **POWER LINES** — I will never attempt to recover my rocket from a power line or other dangerous places.
13. **LAUNCH TARGETS & ANGLE** — I will not launch rockets so their flight path will carry them against targets on the ground, and will never use an explosive warhead nor a payload that is intended to be flammable. My launching device will always be pointed within 30 degrees of vertical.
14. **PRE-LAUNCH TEST** — When conducting research activities with unproven designs or methods, I will, when possible, determine their reliability through pre-launch tests. I will conduct launchings of unproven designs in complete isolation from persons not participating in the actual launching.

Revised 2/4/70

This Solid Propellant Model Rocketry Safety Code Is Approved by The National Association of Rocketry and the Hobby Industry Association of America.

As a member of the Estes Model Rocketry Program, I promise to faithfully follow all rules of safe conduct as established in the above code.

Signed _____

MODEL ROCKET ENGINES

Reliability-proven in over 100,000,000 launchings!

Quality-Tested for High Performance Flights!!

The finest engine made ...you can depend on it...for every flight application!!!

The design and development of the Estes model rocket engine was the real beginning of the safe, educational and exciting hobby that model rocketry has become.

Today's modern rocket engine is the result of over 15 years of engineering efforts at Estes Industries. Consequently, today's rocketeer has dependable, safety-proven engines to carry on his rocket activities.

The energy-packed, solid propellant Estes model rocket engine is a complete power system for your rocket. It is designed and pre-manufactured to perform all power functions for dependable launch and activation of a recovery system. In one compact package it provides thrust for quick lift-off and acceleration to high altitudes, allows for a timed delay period to reach peak altitude while delivering a smoke trail for easy tracking and supplies ejection power for the parachute or other system for your rocket's safe return to earth.

Reliability-proven in over 60 million launchings. Estes engines are manufactured under controlled conditions within exacting tolerance limits. You can count on them for consistent performance from one launch to the next. You'll launch with confidence in contest and exhibition flying.

Six power levels are available in Estes engines. Total impulse is tailored to fit the various NAR-FAI classes. Average thrust, peak thrust and delay times are set up to

give the best performance within these classes and to provide the most useful selection of engines for all rocketeers.

Designed for specific launch and flight functions, rocket engines are expendable — not reusable. Estes model rocket engines are "NAR Safety and Contest Certified" and comply with the National Fire Protection Association's Code for Model Rocketry, NFPA Code 41L.

PHANTOM

Perfect static demonstration model for workshops and presentations. Shows all internal components of a model rocket plus special cut-away version of C6-5 model rocket engine. Ideal for displays and exhibits.

Length 12.6" (32.0cm)
Body Dia. 0.976" (24.8mm)
Weight 1.35 oz. (38.3 g)

Cat. No. 1207 \$3.00

Graphic explanation of a rocket engine's fundamental construction and functions.

CUT-AWAY ENGINE

Ejection charge for deployment of recovery system

Non-thrust delay and smoke tracking charge

High thrust charge for lift-off and acceleration

ENGINE CODING FOR QUICK-N-EASY IDENTIFICATION

1. Label color indicates recommended use of the engine.
 - a. GREEN Single stage rockets
 - b. PURPLE Top stage and multi-stage rockets
 - c. RED Booster and intermediate stages of multi-stage models
2. Code designation stamped on the engine gives useful and important information on its performance capabilities.
 - a. This portion indicates total impulse or total power produced by the engine.
 - b. This portion shows the engine's average thrust in newtons and helps you choose the right engine for your rocket's flight.
 - c. This number gives you the delay in seconds between burnout and ejection charge. Let's you choose the engine with the delay time you want for any flight.

Igniters and complete instructions are included with Estes engines.

MIGHTY 'D' ENGINES

Recommended Only for Experienced Rocketeers!

With the advancement of model rocketry to bigger birds, larger payloads, and higher altitude demands, Estes Industries has developed the "D" engine (Series IV). The Estes "D" provides twice the power of the largest Series I engine. It's the first dependable "D" engine to provide the consistent high-thrust and total impulse levels necessary for peak performance in its class.

Cat. No.	Engine Type	Prices 3 for	Total Impulse lb-sec ^① in-sec ^②	Time Delay (±15%)	Max. Lift Wt.	Max. Thrust	Thrust Duration	Initial Weight Oz.	Propellant Weight Oz.

**SOLAR
LAUNCH
CONTROLLER**

Length 6.13" (15.57cm)
Height 2.38" (6.05cm)
Width 1.44" (3.66cm)
Weight (with batteries) 7 oz. (199g)

**SOLAR LAUNCH
CONTROLLER --
MODEL ROCKETRY'S
MOST ADVANCED LAUNCH SYSTEM**

The Solar Launch Control System should be standard equipment in your range box. This futuristically designed launch control unit requires only 4 alkaline pen light batteries for power. Advanced shape allows for perfect hand held control. Unit is easily assembled in minutes and features safety key, continuity check lamp, ignition button, and 15 feet of lightweight launch cable. System is constructed of durable "non-breakable" plastic. Micro-clips are presoldered. Use with Estes Solar Igniters (#2301). (Batteries not included.) Shipping weight 8 oz.

Cat. No. 2300 \$5.50

plastic controller gives realistic ignition system appearance. Recommended for 6 or 12 volt power sources. Perfect Launch Controller for your 12 volt car battery. No need to remove battery from car, simply connect launch system's battery clips to terminals. Features include arming lamp, safety key, launch button, battery clips, micro-clips, and 20 feet of launch cable. Shipping weight 12 oz.

Cat. No. 2212 .. \$6.00

**Astron Launch
Control System**

Newly redesigned Launch Controller features futuristic design and provides greater reliability with simplified assembly. Bright orange

TILT-A-PAD

Wooden Tripod

This flexible launcher gives you ideal launch control and convenience. Hardwood construction for durability. Adjusts to fit uneven ground. Tilts to compensate for wind direction and speed. Legs fold down for compact storage. Comes in easy to assemble kit form with complete instructions. Shipping weight 2 lbs.

Cat. No. 2216 \$6.00

***Rockets Not Included**

The Solar Launch Controller (#2300) or the new Astron Launch Control System (#2212) are the recommended launch systems for use with the Tilt-A-Pad or Porta-Pad.

PORTA-PAD

Plastic Tripod

Space-age designed, the Porta-Pad is rugged enough to take the stress of countless launchings, even with the big Estes "D" engines, yet is lightweight and compact enough for easy carrying and storage. Strong, girder construction. Orange plastic legs snap off for storage in range box. Friction grip secures rod firmly (accommodates standard 1/8" rod (#2235) or heavy-duty 3/16" Maxi-rod (#2239). Tilt adjustment allows you to compensate for wind.

For extra versatility, Porta-pad can be adapted for rail launchings with Estes "C" Rail (#2250). Shipping weight is 1 lb. 8 oz. Cat. No. 2217 ... \$5.00

SOLAR IGNITERS: Add increased reliability at lift-off with Estes "high performance" Solar Igniter. This uprated igniter is designed especially for the Solar Launch Controller (#2300). Features easy engine installation and is suitable for all Estes model rocket engines. Unique four-element design makes it the most dependable igniter made. Shipping weight 1 oz.

Cat. No. 2301 6 for \$5.50

MICRO-CLIPS: Equip your launcher with the best. Spring-loaded solid steel clips connect lead wires to igniters. Easy-to-clean and highly conductive with flat contact surfaces. Only 1.1 inches long, attach to leads with or without solder.

Shipping weight 1 oz.

Cat. No. 2247 .. 2 for \$6.00

**1/8" DIA.
TWO-PIECE
LAUNCH
ROD:** Handy collapsible two-piece rod for portable launchers.

Pieces slip together to make a 36" long rod. Base rod has a diameter of 1/8". Shipping weight 6 oz.

Cat. No. 2235 \$70

3/16" DIA. MAXI-ROD: Perfect for launching new Maxi-Brutes (German V-2, Pershing 1-A, and Honest John). Fits Porta-Pad Tripod (#2217). Two-piece construction. 36" long, lightweight aluminum launch rod. Collapsible for easy storage. Shipping weight 12 oz.

Cat. No. 2239 \$1.75

BLAST DEFLECTOR PLATE: Slip-on metal deflector plate fits any launcher using 1/8" rod, protects launcher base from rocket blast. Four-inch diameter. Shipping weight 5 oz.

Cat. No. 2241 \$95

ESTES LAND ROCKETS™

Get the **ESTES LAND ROCKET Race Kit!**

FEATURES EVERYTHING YOU NEED TO RACE TODAY!

Discover the thrill and excitement of Land Rocket racing. Watch your machine streak away from the starting line in a cloud of jet exhaust. As she sprints across the finish, realistic drag 'chute is deployed just like the real thing. Kit includes Screamin' Eagle racer with T-wing airfoil, mag wheels and racing slicks. Plus XR-100 re-useable rocket engine, colorful drag chute, official race flags, sponsor decals, and "Competition Guide". Plus ColdPower propellant and synchro line with anchor system. Ship Wt. 27oz.

Cat. No. 4000 \$7.95

"Screamin' Eagle" Racer with T-wing Air Foil and Racing Slicks

Drag Chute*

Race Flags*

XR 100 Re-useable Engine

Synchro Line and Anchor System*

COLDPOWER Propellant*

*Included in race kit only.

Race'em alone or with friends! Hold your own Le Mans, Grand Prix, or Championship Drags!!

SCREAMIN' EAGLE

This wide track monster looks like a "Mustang Funny Car" with giant slicks and T-wing airfoil ready for the Winter Nationals. 11.4" long. (28.96cm) Ship Wt. 15 oz.

Cat. No. 4001 \$4.95

LIGHTNIN' BUG

A real four wheel bomb featuring "VW Funny Car" design with simulated 'chute pouch and far-out decals. 11.4" long. (28.96cm). Ship Wt. 15 oz. Cat. No. 4002 \$4.95

SCORCHER

This "Salt Flats Machine" is a rocket engine on wheels ready to set a new land speed record. 12" long. (30.48cm). Ship. Wt. 15 oz. Cat. No. 4003 \$4.95

STARFIRE

A "Rocket Powered Rail Job" low to the ground with sleek lines ready to sprint the strip. Watch out, dragsters! 13.25" long. (33.66cm). Ship. Wt. 15 oz. Cat. No. 4004 \$4.95

Easy to build and fun to race.

Each Land Rocket is uniquely designed in the Estes quality tradition. Engineered for action and performance, attain scale speeds over 700 m.p.h. (Actual speeds over 35 m.p.h.) All models powered by safe ColdPower propellant. Each car features light-weight, vacuum-formed body, T-wing airfoil, high performance design, mag wheels and racing slicks. Plus colorful decals, built-in guide lugs and re-usable XR-100 ColdPower rocket engine.

COLDPOWER PROPELLANT

High performance, non-flammable fuel for all Estes Land Rockets.

15 oz. can provides 10-15 runs.

Ship. Wt. 16 oz.

Cat. No. 3404 \$2.50

COLDPOWER CONVERTIBLES™

YANKEE 5

Skill Level 2
All-American stars and stripes decor
Payload section
Sleek lines
12" Parachute recovery

SPECIFICATIONS

Length: 17" (43.18cm)
Diameter: 0.976" (24.79mm)
Weight (with engine): 2.06 oz.
(58.40g)
Shipping weight: 32 oz.
Cat. No. 1112 \$11.95

MARAUDER

Skill Level 2
Sounding rocket design
Great sports model
Easy-to-build
Payload section
12" Parachute recovery

SPECIFICATIONS

Length: 18" (45.72cm)
Diameter: 0.976" (24.79mm)
Weight (with engine): 2.06 oz.
(58.40g)
Shipping weight: 32 oz.

Cat. No. 1110
\$11.95

COLDPOWER™ ROCKET PROPELLANT

High performance, non-flammable fuel for all Estes ColdPower rockets. 15 oz. can provides 6-10 flights. Ship wt. 16 oz.
Cat. No. 3404 . \$2.50

SHARK

Skill Level 2
Surface-to-air missile styling
Deluxe sports model

SPECIFICATIONS

Length: 19.5" (49.53cm)
Diameter: 0.976" (24.79mm)
Weight (with engine): 2.06 oz. (58.40g)
Shipping weight: 32 oz.
Cat. No. 1111 \$11.95

ENTER THE DESIGN OF THE MONTH CONTEST

YOUR DESIGN COULD WIN YOU A \$75 MERCHANDISE CERTIFICATE

Have an idea for an original design? Enter our Design of the Month competition today! Simply follow the rules below. Keep those entries coming, and maybe you'll be our next winner!!

DOM RULES

1. All entries become the property of Estes Industries and cannot be returned.
2. Employees of Estes Industries and members of their immediate families are not eligible.
3. Any type of model rocketry design can be entered (rockets, boost-gliders, launching or recovery devices, etc.).
4. Designs should be new, original, and different, but they also need to be workable. The goal is to develop something new that other rocketeers can build and use successfully, too.
5. Entries will be judged on practicality, originality, neatness, completeness, and clarity. Plans do not have to be flight tested and proven. However, a proven design is more apt to win.
6. Your design entry should include a parts list and any instructions or diagrams you feel would be helpful.
7. Please do not send the actual model as it cannot be returned.
8. Photos of entries are greatly appreciated, but are not required.
9. You may send as many entries as you like.
10. New contest every month.
11. All designs reaching Estes Industries during the calendar month will be entered in that month's competition. (Date of receipt, not postmark, will determine the month in which a design will be entered.)
12. If two or more exceptional entries are received during any month, the judges may, at their discretion, make identical first place awards or give additional honorable mentions.
13. Designs should be sent to the Design of the Month Editor, Estes Industries, Inc., Penrose, Colorado 81240. However, all plans sent to us which are not specifically addressed to another contest or department will be automatically placed in the Design of the Month Competition.
14. Each month the designer of the winning entry will receive a certificate entitling him to \$75.00 in merchandise and an award certificate suitable for framing. Award winners will be notified by mail.

GOOD LUCK!!!!

START A SCHOOL PROGRAM IN MODEL ROCKETRY

Would you like to see your teacher start a model rocketry program for your school? We will be happy to assist you. Send your teacher's name, the name of your school, your school's address (be sure to include street address, city, state, and zip code), and your own name and home address. Send this information to Education Department, Estes Industries, Department 51, Penrose, Colorado 81240.

We will send your teacher a free teacher's guide explaining what model rocketry can help you to learn, information on special offers to get a school or club program started, a catalog, and a free Astron Alpha model rocket kit.

If you would like for your 4-H club, Scout troop or den, YMCA, or other group to start a model rocketry project, send us the name, title, and home address of the adult leader. Tell us what type of group it is. We will send the leader information on how to start an exciting and educational model rocketry project.

TURN YOUR MOST DIFFICULT MATH PROBLEMS INTO A BREEZE WITH THIS 8-DIGIT

DIGITRON CALCULATOR

A Slide Rule / Memory Calculator

From **HANIMEX**

In the flicker of an eye, you can add, subtract, multiply, divide, do percentages and square roots for the most complex mathematical problems. Automatic constant, floating decimal, chain calculations and full memory — all are features of this mini-marvel of the space age. Perfect for working model rocketry design, thrust, drag or altitude equations. Great companion for your science and math class. Small enough to fit into your pocket or range box.

Shipping wt. 16 oz.

Cat. No. 1488

Only \$19⁹⁵

An Attractive 3 5/16" x 5 1/2" Size

Operates on AA size penlight batteries.

Has external jack for AC adapter. (AC adapter not included.)

STAR TREKTM FLYING MODEL ROCKETS

KLINGON BATTLE CRUISER

Impressive flying scale model of the Enterprise's arch rival. Accurately detailed with Klingon Warship insignia. Modified slightly for model rocketry flights, kit features include premolded plastic parts, quick-release engine mount, and 12" parachute recovery. See page 29.

STARSHIP ENTERPRISE

Precisely detailed, flying model of television's most famous spacecraft. Modified for operation within earth's atmosphere. Special parachute recovery probe attaches quickly for flight and removes easily for display. Comes ready-to-assemble with authentic full color Starship decals, 18" parachute, and special Enterprise display stand. See page 29.

NEW!

STAR TREKTM Model Rocketry Starter Kit

Perfect model rocketry starter outfit. Complete with everything you need to lift off in minutes (less battery and glue). High performance Star Trek rocket features easy assembly and quick finish decor. No painting required! Reliable 12" parachute recovery for flight-after-flight enjoyment.

Star Trek Launch Control System uses standard 12 volt lantern battery (not included).

Designed with futuristic handheld Controller and sleek launch pad/power cap.

Comes with tight pack of three safety certified engines, recovery wadding, and Astron igniters. See page 4.
